## Rejuvenary River Circus

an Arm-of-the-Sea Theater Production

**Saturday, November 16, 2013 at 6:30 pm**

THE REJUVENARY RIVER CIRCUS features gorgeous masks and puppet characters, a unique hand-made set and live original music. The story follows Malakai, a messenger and water carrier who travels between Mountain Peaks and the Deep Blue Sea. Along his journeys Malakai encounters a host of creatures, including a lyrical sea turtle, a fast-talking crow, a pair of industrious beavers, beds of filter-feeding oysters, and schools of migrating trout. Each animal offers insights into their particular role in a watershed's ecosystem services. When the old man falls ill his granddaughter Rachel must rise to the challenge and help restore her grandfather, the River, back to health.

**REGISTRATION IS REQUIRED**

This program is appropriate for organized groups and families. For more information and to register, call (908) 637-4125. Funding for this program is made possible by Mansfield Township Clean Communities Program.
